ITALIAN DESIGN · JAPANESE HEART

SHARED TIME

Leaving a mark on time.

Some passions are born almost in silence. They grow over time, fuelled by curiosity and by the wish to turn an idea into something extraordinary. VOSLIER was born from this vision: a meeting of different sensibilities, united by a devotion to fine watchmaking and mechanical precision.

From the choice of materials to the architecture of the case, from the movement to the proportions, nothing is left to chance. The result is a watch with two natures: on the outside, the lines of Italian design; on the inside, the patient precision of Japanese mechanics.

“Not simply to make a watch,
but to give shape to an identity.”

THE DUEL

Light exists because shadow exists.

In an ancient forest, two warriors meet: one in the black armour of the night, the other in the white armour of the dawn. They cross blades, and neither prevails. This is the story we wear on the wrist: two opposite souls, one heart.

闇

YAMI

THE SHADOW

The warrior of shadow moves through the night of the forest. Silent and essential, he needs no light to be feared. Yami is the dark side of the collection: deep black on steel.

光

HIKARI

THE LIGHT

The warrior of light arrives with the dawn. Clear and direct, he brings light even where the forest is at its thickest. Hikari is the bright side of the collection: ivory dial and white strap.

THE HEART

A Japanese heart.

The Miyota 8215 is an automatic calibre made in Japan by Miyota, the movement manufacturer of the Citizen group. It winds itself with the motion of the wrist, and you can watch it at work through the exhibition caseback, beside the 闇光 seal that joins the two names.

WHEN NIGHT FALLS

In the dark, the same light.

Indices, numerals and hands are treated with BGW9 luminous material. In the dark, Yami and Hikari glow with the same blue.
